PROFESSIONAL SUMMARY

Full-Stack and Flutter Developer with 3.5+ years of experience building cross-platform mobile, web, and backend solutions. Strong in Flutter, Dart, Node.js, Express, TypeScript, and MongoDB, with hands-on experience in real-time communication, WebRTC, Socket.IO, Redis, Riverpod, payments, authentication, security, offline persistence, and CI/CD. Experienced across FinTech, e-commerce, transportation, and real-time communication products, with a focus on clean architecture and production-ready delivery.

TECHNICAL SKILLS

Languages: Dart, TypeScript, JavaScript, HTML5, CSS3, C

Mobile Development: Flutter, Android (Kotlin/Java), iOS, Cross-Platform Architecture, Material Design 3

Frontend and Web: Flutter Web, Responsive Web Design, Component Systems

Backend and APIs: Node.js, Express.js, RESTful APIs, WebSockets, Socket.IO, Redis Pub/Sub, JWT Authentication, Microservices

Databases and Storage: MongoDB, Mongoose, Firebase Realtime Database, SQLite, Hive, Offline Caching

State Management and Architecture: Riverpod, Provider, GetX, BLoC, Clean Architecture, MVVM, Repository Pattern

DevOps and Tools: Docker, Docker Compose, Nginx, GitHub Actions, CI/CD, Firebase FCM, Cloudinary, AWS SES, Git, Postman, VS Code, Android Studio

Integrations and Security: WebRTC, Stripe, Razorpay, Keycloak OAuth2, Nafath KYC, Biometrics, mTLS, SSL, Security Headers, Rate Limiting

PROFESSIONAL EXPERIENCE

Flutter Developer | Mobile App Developer

Interland Technologies Service Pvt Ltd | Kochi, India | Apr 2023 - Present

- Architected and delivered 10+ cross-platform applications using Flutter and Dart for iOS and Android, emphasizing reliability, offline persistence, and smooth 60 FPS UI performance.
- Engineered GrowK, a digital 24K gold investment and savings application with live price tracking, Keycloak OAuth2 authentication, and Saudi Nafath KYC workflows.
- Developed crypto wallet and accounting platforms, including gamified crypto reward mechanisms and Payzo Books financial invoicing features.
- Partnered with product teams to translate responsive Figma wireframes into production Flutter interfaces and reusable UI components.
- Automated build and deployment pipelines using GitHub Actions, reducing release deployment cycle times by 40%.
- Applied MVVM and Clean Architecture with Riverpod and Provider, achieving 95%+ test coverage across core business modules.

Flutter Developer Intern

KingoLabs Innovations Pvt Ltd | Kochi, India | Jan 2023 - Mar 2023

- Built internal CRM mobile tools to streamline sales workflows and client interaction tracking across internal teams.
- Developed 3+ cross-platform mobile applications using custom UI animations, CustomPainter, and responsive screen adapters.
- Participated in 20+ code reviews focused on code standards, memory leak prevention, and performance optimization.

PROJECTS

SyncTalk - Full-Stack Real-Time Communication Platform

Tech Stack: Flutter, Riverpod, GoRouter, WebRTC, Socket.IO, Node.js, TypeScript, Express, MongoDB, Redis, Docker, Nginx, Cloudinary, Hive, Firebase FCM

- Engineered a real-time messaging and WebRTC video calling platform with Flutter and Node.js/TypeScript backend, supporting sub-100ms message delivery latency.
- Architected horizontally scalable WebSocket infrastructure using Socket.IO Redis Adapter and pub/sub message distribution; implemented offline-first message persistence and background sync with Hive.
- Configured production deployment with Docker Compose, Nginx reverse proxy, SSL termination, security headers, rate limiting, and GitHub Actions CI/CD.

GrowK - FinTech Digital Gold and Wealth Savings App

Tech Stack: Flutter, Riverpod, Material 3, Finexus/BankBox APIs, Keycloak OAuth2, Biometrics, Firebase FCM, English/Arabic i18n

- Developed live 24K gold price tracking, instant buy/sell flows, wallet transaction processing, and recurring goal-based savings schedules in SAR currency.
- Integrated Saudi Nafath KYC, bank account binding with OTP authentication, nominee management, biometric authentication, OAuth2 token refresh, and custom mTLS/SSL security.
- Delivered bilingual English/Arabic localization with RTL layout support and custom Material 3 theming.

Multi-Vendor E-Commerce Platform

Tech Stack: Flutter (Android, iOS, Web), Riverpod, Node.js, Express, MongoDB, Stripe, Cloudinary, AWS SES, Firebase Cloud Messaging

- Architected a 3-tier marketplace ecosystem comprising Buyer mobile app, Vendor store management app, and Web Admin panel backed by Node.js/Express REST APIs.
- Implemented Stripe checkout and backend webhook verification, JWT/RBAC security controls, Cloudinary media pipelines, and AWS SES transactional email notifications.
- Structured reusable Flutter components, responsive grids, Riverpod state management, and compile-time environment configuration.

AutoRide - Real-Time Ride-Hailing Platform

Tech Stack: Flutter, Provider, Google Maps SDK, Polylines, Geolocator, Firebase Realtime Database, Firebase Auth, Node.js, Razorpay

- Built dedicated Rider and Driver applications with real-time driver tracking, ride matching, Google Maps route rendering, and dynamic fare calculation.
- Implemented live location streaming with Firebase Realtime Database and Geolocator, plus distance estimation and pickup-dropoff based pricing.
- Integrated Razorpay through an Express.js and Node.js payment backend and added push notifications, onboarding flows, and QR code scanning.

SkyHopper - 2D Arcade Game

Tech Stack: Flutter, Flame 2D Game Engine, Flame Audio, Riverpod, Google Mobile Ads (AdMob), SharedPreferences

- Engineered a 60 FPS 2D mobile game with Flame component lifecycle handling, collision detection, animated sprite rendering, and layered parallax backgrounds.
- Integrated BGM and SFX audio, responsive controls, AdMob banner/interstitial/rewarded ads, and local high-score persistence with Riverpod and SharedPreferences.

EDUCATION

B.Tech in Computer Science and Engineering

Malabar Institute of Technology | Kannur, India | Jun 2015 - Jun 2019

CERTIFICATIONS

- Multi-Vendor Full-Stack Development - Udemy: Node.js, Express, MongoDB, Cloudinary, Stripe, AWS SES, Admin Dashboard, Security
- Flutter Development Certification - Spectrum Softech & Avodha Institute (2023)
